

TWISTED SUBDERMAL NEEDLE ELECTRODE

Description

Disposable twisted monopolar subdermal needles.
Available in set of 2, 3, 5 and 10 twisted needles.
The twisted needle electrodes are easy to recognize thank to the color coding of the lead wire.

- Special sharpening for a painless and atraumatic needle insertion;
- 100% quality control of the product;
- Very thin shrinking tube as alternative to the needles with moulded tube;
- Pair of two needles twisted with cables and different combinations of colors.
