

CORTEX STRIP/GRID ELECTRODES WITH CONNECTION CABLE

FOR INTRAOPERATIVE MONITORING AND STIMULATION

- ◆ Contact diameter 4 mm
- ◆ Thickness 0.5 mm
- ◆ Width of strips 10 mm
- ◆ Distance between the contacts 10 mm
- ◆ Single use sterilised item
- ◆ Not MRI compatible
- ◆ Touch-Proof connectors (DIN 42802)
- ◆ Contacts made of stainless steel

Class III, CE mark issued by the notified body LNE/G-MED 0459

- ◆ Pre-cut grid to adapt to the areas to explore
- ◆ Thin and flexible
- ◆ Numbered contacts
- ◆ Good tensile strength
- ◆ Dome shaped contacts for improved adherence

Made of silicone, the cortical electrodes easily contour to the areas to be explored.
